To Whom It May Concern

Re: Confirmation of CFD Developers Team (zhvr@inbox.ru) as a Microsoft BizSpark Startup and its Rights to use Microsoft software
We are pleased to confirm CFD Developers Team as a Startup participating in the Microsoft BizSpark™ Program as of Friday, 2 October 2013 (UTC). BizSpark is a three-year program (1) requiring annual re-enrollment.

BizSpark (the "Program") is an innovative program that unites startups with entrepreneurial and technology resources in a global community with a common goal of supporting and accelerating the success of a new generation of high-potential startups.

The Program also provides Startups with access to Microsoft technologies to design, develop, test and demonstrate software solutions, and to deploy those software solutions as hosted web-based "software as a service" solutions. Startup's participation in this program is voluntary. No fee is charged for participation in the Program and the Program benefits (including licenses)

To be eligible for Program, the startup must meet all of these criteria:

- Actively engaged in development of a software-based product or service that will form a core piece of its current or intended business (2),
- Is privately held,
- Has been in business for less than 3 years (3), and
- Has less than US\$500 thousand in annual revenue (4)

For further details on the Program, please visit www.microsoft.com/bizspark. BizSpark program rules and BizSpark End-User License Agreement can be found at: <http://aka.ms/gek4e5>, <http://aka.ms/nnglgh>.

Pursuant to terms of the Program, during the term of its enrollment Startups hold non-exclusive, and non-transferable licenses for the program software listed in Appendix A to Microsoft BizSpark Program Guide for Startups, including (i) design, development, test and demonstration licenses and (ii) production and hosting licenses.

The term of production and hosting licenses is limited to the Startup's participation in BizSpark membership. Design, development test and demonstration licenses are perpetual, except for cases when the Startup's participation in BizSpark ends for the specific reasons described in the Startup Agreement.

As of the date of this letter CFD Developers Team is entitled to licenses for 2 users. The details of the licenses granted to each user from CFD Developers Team under the Program can be found at <http://ms-start.ru/bizspark/licensing>.

This letter shall, for all purposes, be a final confirmation of CFD Developers Team's rights under BizSpark Program's licenses issued by Microsoft Ireland Operations Limited to the Program Software pursuant to terms of the Program. No additional documents are required for licensing purpose.

If you have further questions on the CFD Developers Team membership status, please revert to Anna Izmailova (v-anizma@microsoft.com). To verify the authenticity of this letter, you can visit <http://aka.ms/cnrlnb> and enter the Primary contact's email (zhvr@inbox.ru) and the date the company joined BizSpark (Friday, 2 October 2013 (UTC))

-
- (1) Unless terminated earlier, as provided by Microsoft BizSpark Startup Agreement.
 - (2) Startups cannot be in the business of providing services to others such as hosting, web agency, system integration or outsourced development.
 - (3) Startups who are actively engaged in software development but have not yet completed the formalities of establishing a business are also eligible for entry into BizSpark.
 - (4) As applicable to Russia.
